

Directions to Capstreet's Office

Capstreet is located in the Kinder Morgan Building, 1001 Louisiana Street, Suite 3200, Houston, TX 77002

The building is bordered by Louisiana and Milam streets, and McKinney and Lamar streets. If you enter the building on the Milam side, you'll see the elevators to the 30th floor immediately in front of you.

Take the elevators to the 30th floor. When you exit the elevator you'll see an intercom system. Use the arrow buttons to select Capstreet and someone will buzz you in to the 30th floor lobby area. From there, you can take either another elevator or the stairs to the 32nd floor.

Parking

There is a parking garage on Milam street, directly across from the building . The garage is called 1010 Travis.

You can enter the garage on McKinney or Travis streets. The garage has signs discouraging public parking, but you can park there with a validation from Capstreet. If you do park in the garage, be sure to remember to ask us for a validation ticket, because hourly parking there is very expensive. From the garage you can cross Milam to reach our building or go through the tunnel system.

There is also a surface parking lot across on McKinney Street, across from the building. Capstreet can't validate parking for this lot.
